Attorneys for Plaintiffs

RAYMOND ARTHUR ABBOTT, ET AL.,

Plaintiffs

v.

FRED G. BURKE, ET AL.,

Defendants

SUPREME COURT OF NEW JERSEY

DOCKET NO. 42,170

CIVIL ACTION

**CERTIFICATION OF MELVIN L. WYNS**

Melvin L. Wynn, of full age, hereby certifies as follows:

1. I am an expert in New Jersey public school finance and the State's methods of funding public education in New Jersey school districts, including in the thirty-one (31) poorer urban districts (formerly known as the "Abbott districts") that have been the subject of this litigation. I served as Director of New Jersey Department of Education's ("DOE" or "State") Office of School Finance from September 1988 until July 2001, and as School Business Administrator and Board Secretary for the Trenton Public Schools from July 2001 until July 2005. I also served as interim Business Administrator for the Trenton school district from October 2007 through December 2007. Although I am currently retired, I continue

to closely follow and analyze developments related to school funding in New Jersey, especially as they relate to the implementation of the new school funding formula -- the School Funding Reform Act of 2008 ("SFRA").

2. I submitted an expert report and provided expert testimony for Plaintiffs in the remand hearing on the constitutionality of the SFRA in February 2009 before Judge Peter Doyne in Bergen County Superior Court. Specifically, I analyzed the impact of the SFRA on the budgets of the Abbott districts. Further, I am familiar with this Court's ruling in May 2009 (Abbott XX) upholding Judge Doyne's decision to allow statewide implementation of the SFRA and to lift the specific funding remedies previously in place for Abbott districts. I am also familiar with the Court's directive in Abbott XX that the determination of SFRA's constitutionality is conditioned upon fulfillment of the State's obligation: (1) to provide school aid at the specific levels required by the SFRA for the initial three years of the formula's operation; and (2) to diligently review the actual implementation of the formula over the three-year period and make whatever adjustments to the formula as may be necessary based on that review. Since this ruling was issued last May, I have continued to study and analyze the State's implementation of the SFRA formula on districts statewide and Abbott districts in particular.

3. As I have done in the past, I am assisting Abbott plaintiffs and their counsel, Education Law Center, on this motion pro bono.

4. I submit this Certification to provide the Court with an explanation and analysis of the State's notification of the level of state formula aid that will be made available in 2010-11 for school districts statewide, including Abbott districts. Specifically, I will review and analyze the aid levels announced by the State for 2010-11, as reflected in the Governor's March 16, 2010 proposed FY11 State Budget, and the notifications of state aid issued by the DOE on March 19, 2010 to individual districts for purposes of preparing and adopting district 2010-11 budgets. I will then analyze and compare the aid levels for 2010-11 contained in the State's district notifications to the levels provided in the current 2009-10 school year. I will also give my opinion, based on my expertise in New Jersey school finance, on whether the State is providing school aid in 2010-11 at the levels required by the SFRA formula.

5. For my analysis, I reviewed the specific provisions of the SFRA formula; the Abbott XX ruling; the aid amounts provided to districts under the SFRA formula in the current 2009-10 school year; and the aid levels contained in the state aid notices for 2010-11 issued by the DOE to districts statewide.

6. For 2010-11, the DOE has notified districts that the State will reduce state school funding aid for kindergarten through

12<sup>th</sup> grade ("K-12") by \$1.081 billion statewide. This state aid reduction is 13.6% below the K-12 aid levels provided to districts under the SFRA formula in 2009-10.

7. The breakdown of the \$1.081 reduction in state aid by specific categories in the SFRA formula is as follows:

<b>Aid Category</b>	<b>2009-10</b>	<b>2010-11</b>	<b>Reduction</b>
Equalization Aid	\$5,824,981,622	\$5,753,253,678	-\$71,727,944
Special Education Categorical Aid	\$730,145,733	\$423,649,481	-\$306,496,252
Transportation Aid	\$352,014,933	\$83,666,614	-\$268,348,319
Security Aid	\$241,857,632	\$97,664,084	-\$144,193,548
Choice Aid	\$8,974,879	\$9,846,649	\$871,770
Adjustment Aid	\$747,693,645	\$456,029,626	-\$291,664,019
Education Adequacy Aid	\$24,673,859	\$24,673,859	\$0
<b>Total K-12 State Aid</b>	<b>\$7,930,342,303</b>	<b>\$6,848,783,991</b>	<b>-\$1,081,558,312</b>

8. To allocate the aid reductions to individual districts, the DOE calculated the amount of each district's aid reduction as a percentage of the district's general fund budget for 2009-10, and then reduced the level of the various SFRA K-12 aid categories initially determined for the district for the 2010-11 school year. This calculation was applied to every school district to achieve the \$1.081 billion statewide cut in K-12 formula aid announced in the Governor's FY11 State Budget.

9. The DOE's calculation of the aid reduction for individual districts involved a two-step process. First, the DOE altered the amount of K-12 aid under the SFRA formula for 2010-11 for each district by: (1) not increasing the total amount of statewide equalization aid as required by the SFRA statute; (2) not inflating any of the formula aid parameters by the Consumer Price Index

("CPI") as required by the SFRA statute; (3) not applying the statutory provisions in SFRA concerning the allowable annual growth in State aid; and (4) ignoring altogether the SFRA's requirements relating to Education Adequacy Aid.

10. Second, the DOE reduced the altered amount of formula aid for 2010-11 by 4.994% of each district's 2009-10 general fund budget. In most districts, the DOE's calculation of K-12 aid reduction equaled 4.994% of the 2009-10 general fund budget. In some districts, K-12 state aid was less than 4.994% of the 2009-10 general fund budget so the reduction in these districts is less than 4.994%. The DOE then reduced aid for each district by cutting the various SFRA aid categories mentioned above. These categories were recalculated for 2010-11 without following the SFRA's formulaic provisions and requirements.

11. A district-by-district analysis of the aid reductions below the SFRA's 2009-10 levels by funding category is attached to this Certification as Exhibit A.

12. My analysis demonstrates that the K-12 aid reductions for the Abbott districts total \$255.9 million, or \$1,066 per pupil. See Exhibit B. In districts with the highest concentration of at-risk students, over 60%, the reduction is \$1,067 per pupil. In districts with the lowest concentration of poverty, below 20%, the reduction is \$733 per pupil. The aid reductions by district poverty classification are set forth in Exhibit C.

13. I also analyzed the K-12 aid reductions in 93 districts classified as "high need school districts" by the DOE. High need districts are defined as those in which 40% or more students are "at-risk," measured by eligibility for federal free and reduced price lunch, and which fail to meet established student proficiency levels on the State's 3<sup>rd</sup>, 4<sup>th</sup>, 8<sup>th</sup> and high school mathematics and language arts assessments. See N.J.A.C. 6A:13-3.3. All Abbott districts are classified as high need districts. The aid reductions in high need school districts total \$362 million, or \$1,002 per pupil. The reductions for each high need district are set forth in Exhibit D.

14. The State's \$1.081 billion reduction in K-12 state aid reflects the amount cut from the aid levels actually provided to districts under the SFRA formula in 2009-10. For 2010-11, DOE has notified districts only of K-12 state aid levels that are based on the aid reductions described in paragraphs six through ten above. The DOE has not provided any data or other information showing what the required aid amounts would be for each district if the DOE had calculated State aid in accordance with the SFRA's statutory requirements.

15. The DOE has notified districts that preschool education aid will increase by 2.85% from \$596 million in 2009-10 to \$613 million in 2010-11. This increase, however, accounts only for enrollment growth, and does not include the annual CPI adjustment required by the SFRA. The failure to include the required CPI

increase results in a \$9.8 million shortfall in preschool education aid for 2010-11.

16. It is also important to note that the \$1.081 billion reduction in K-12 aid for 2010-11 follows the State's failure to provide the full level of aid required by the SFRA in the current year. In 2009-10, the State did not apply the annual growth rates in the SFRA formula, resulting in a shortfall of \$302.9 million in K-12 formula aid statewide. Thus, the State did not implement the SFRA formula at the full operational level in 2009-10.

17. Based on my analysis, I conclude that the State is providing school funding aid in 2010-11 to New Jersey school districts, including high needs and Abbott districts, at a level that is substantially below that provided to districts under the SFRA formula in 2009-10, and far below the levels required by the SFRA for 2010-11. Accordingly, the State is not providing State school aid under the SFRA formula in 2010-11 at the levels required by the SFRA's provisions.

18. The non-partisan Office of Legislative Services (OLS), in analyzing the DOE's FY11 school aid budget and allocations, reached the same conclusions. Specifically, the OLS informed the Legislature that the DOE's aid level for 2010-11 "departs significantly from the funding provisions of the School Funding Reform Act of 2008." See Analysis of the New Jersey Budget, FY2010-11, Department of Education, April 2010, page 5; [http://www.njleg.state.nj.us/legislativepub/budget\\_2011/education11](http://www.njleg.state.nj.us/legislativepub/budget_2011/education11)

.pdf.

19. I have had extensive experience with the district budgeting process at the DOE and at the district level. It is important to emphasize that districts have already made critical budget decisions based on the notifications of state aid for 2010-11 issued by the DOE in March. Based on public reports and information I have received from districts, virtually all school districts have prepared budgets that reduce staff and cut back or eliminate programs and services for the 2010-11 school year that were funded under the SFRA in 2009-10. Additionally, in those districts where budgets were defeated in the April 20, 2010 elections, the municipal governing bodies have made even further reductions in the districts' budgets. Further, under state law, districts were required to provide each non-tenured teaching staff member a written notice by May 15, 2010 if employment will not be offered because of the aid and budget reductions.

20. Based on my experience, it is critical that districts know as quickly as possible that the SFRA formula will be fully implemented and that they will receive K-12 state school aid in 2010-11 at the prescribed formula levels. As discussed above, districts have been forced to make crucial decisions about whether to retain or layoff teachers and other staff, and maintain or cut essential programs and services. If not remedied immediately, these decisions will be difficult to reverse due to the amount of time needed to plan and the limited availability of staff in the

summer.

21. The Abbott XX ruling correctly underscores the direct link between the provision of state aid at the levels required by the SFRA formula and the three-year review of the formula's implementation in school districts, particularly districts with high concentrations of at-risk students. As an expert in school finance, I need to emphasize that the effectiveness of the formula, and its operative parts, in providing the adequate resources for students to achieve State academic standards and a thorough and efficient education, cannot properly be assessed and evaluated - nor can the State make any determinations as to the adjustments to the formula that may be necessary for the following three years - unless districts are provided with state aid at the levels required by the formula. Put differently, a review of the implementation of the formula in school districts across the state cannot meaningfully be conducted unless the formula is actually implemented in accordance with the SFRA's statutory requirements. The first three-year review, the Education Adequacy Report, is due on September 1, 2010. See N.J.S.A. 18A:7F-46 46(b).

22. As Abbott XX makes clear, the SFRA formula is designed to provide the funding and resources necessary for all students, particularly children in districts with high concentrations of at-risk students, to have the opportunity to achieve a thorough and efficient education. In my opinion, the State's aid proposal is not only dramatically below the levels required for implementation

implementation of the SFRA formula, but will also deprive students, especially at-risk students, of the funding necessary to provide the staff, programs and services essential to provide T&E.

I hereby certify that the foregoing statements made by me are true. I am aware that if any of the foregoing statements are willfully false, I am subject to punishment.

  
MELVIN L. WYNS
